

Solar battery nsw rebate

What is the NSW solar battery rebate?

Save on solar battery costs and reduce your energy bills with the new NSW Solar Battery Rebate, launched on 1 November 2024. Under the Peak Demand Reduction Scheme (PDRS), the NSW Government is helping households and businesses with rooftop solar systems unlock the full potential of their solar energy.

How much does a solar system rebate cost?

Eligible homes and businesses can receive a rebate between \$1,600 and \$2,400 off the upfront installation cost of a new solar system battery, depending on the size of the battery. Additionally, an incentive of \$250 to \$400 is available for connecting the battery to a VPP.

What is NSW's 2025 battery rebate?

NSW's 2025 Battery Rebate is now a VPP incentive offering up to \$1,500 for eligible solar battery systems. See eligibility, savings, and how to combine with the federal rebate

What is a solar battery rebate & how does it work?

Battery Installations: The rebate is designed to encourage more homes and businesses to adopt solar battery storage, so properties that already have a battery installed are also eligible for incentive. **Approved Battery Types:** Eligible batteries must have a capacity of between 2kWh and 28kWh and should be able to connect to a VPP.

Is the new Australian battery rebate a good idea?

The NSW government is no longer providing an upfront saving off new batteries. In place of that incentive, is the more generous, nationwide home battery rebate. The new Australian battery rebate provides greater savings than the initial NSW subsidy, so residents are far better off after the change.

Does New South Wales have a battery rebate scheme?
