

Solar battery subsidy nsw

Are there rebates for solar battery storage in NSW?

There are available solar battery rebates and schemes for homes and businesses across NSW. Here are the official scheme reductions for solar battery storage from the NSW Government. Homes and businesses with existing solar can get a value off the up-front installation cost of a battery, depending on the battery size.

Do batteries pay for themselves in NSW?

The good news is batteries can still pay for themselves in NSW with only the federal battery rebate. If you have arranged to get a battery installed with the expectation of receiving both the federal and NSW battery rebates, it can still be worthwhile even without the NSW state incentive.

When does the NSW battery subsidy end?

The NSW Battery Subsidy will be ending June 30th, 2025. Here's why New and existing solar owners can now access savings on their first battery through the Peak Demand Reduction Scheme (PRDS) incentive. Here we'll go through everything you need to know about the PDRS scheme, approved battery, how to be eligible, and more! Is it a Rebate?

Are NSW solar rebates available in 2025?
