Interested in adding solar energy storage to your home? Find a NeoVolta solar battery certified dealer near you here, & take a step towards reliable solar power.

Why do you need solar batteries with storage?

Here are a few reasons why some consumers opt for solar batteries with storage for their residential solar PV system: No Local Utility Grid to Connect to If users live in an area where no local utility grid is available to connect their solar system too, having off-grid solar batteries are necessary for complete power backup.

Do solar PV systems need a battery bank?

In the case of most residential solar PV systems, a battery bank will not be necessary. It is because most systems are tied into the local utility grid, which consistently supplies electricity with few power outages. In simple words, the local utility works like the solar PV system's battery storage system.
