What is a SolarEdge home battery?

The SolarEdge Home Battery is more than just storage -- it's the heart of a fully integrated smart energy system. Designed to work seamlessly with SolarEdge inverters, the Backup Interface, EV chargers, and other smart energy devices, it gives homeowners greater control, efficiency, and energy independence.

What is a SolarEdge energy bank battery?

The 9.7 kWh SolarEdge Energy Bank Battery is optimized to operate with SolarEdge Energy Hub inverters. The battery bank's design maximizes the system's performance, allowing more energy to be stored and used for on-grid and backup power applications. The DC-coupled battery features superior overall system efficiency, from PV to battery to grid.

Can a SolarEdge home battery be connected to a single inverter?

Installations with multiple SolarEdge Home Batteries connected to a single inverter require a pair of SolarEdge branch connectors (DC + and DC -) per battery, excluding the last battery. The branch connectors should be purchased separately. For more details, see the Connecting the Home Hub Inverter to Multiple Home Batteries technical note.

Where should the SolarEdge home battery be installed?

See the Accessories P/N table below. The SolarEdge Home Battery 400V must be installed in a location where the ambient temperature falls between +32°F to +104°F for no less than 95% of the warranty period and between +14°F to +122°F for the rest of the period. For details, see the SolarEdge Home Battery limited product warranty.

Does SolarEdge home battery have a warranty?

For warranty details, see the SolarEdge Home Battery limited product warranty. datasheet. Installations with multiple SolarEdge Home Batteries connected to a single inverter require a pair of SolarEdge branch connectors (DC + and DC -) per battery, excluding the last battery. The branch connectors should be purchased separately.

When should I use SolarEdge home batteries?

when rates are high or at night. When installed with backup power during outages. Integrates with our single phase inverters. Integrates with our three phase inverters. Enables full or partial home backup when the grid is down. Need help? Elevate Your Home's Energy Independence with SolarEdge Home Batteries.
