Can a solar battery be used as a home battery?

As a renewable energy policy, government financial incentives specify installing a battery with new solar panels or adding a battery to an existing solar system. That doesn't mean you can't benefit from a standalone home battery.

Could home battery storage boost your solar set-up needs?

If not, home battery storage may be just the boost your solar set-up needs. Once upon a time, household batteries were just what you reached for to revive your TV remote or put a stop to those pesky smoke alarm beeps. Today though, they're an important part of a much bigger picture - the transition to a more sustainable future.
