

Solar panel battery cost uk

How much does a solar battery cost in the UK?

Solar battery prices in the UK range from £3,500 to £10,000, yet they offer a dependable power source during dark winter nights by storing excess energy from the daylight hours. Our comprehensive guide ensures you have the necessary insight on solar battery prices, grants, and savings opportunities to make an informed decision confidently.

How much does a solar system cost in the UK?

When factoring in solar panel costs in the UK, the average 4kW solar system with battery price, for a 3-bedroom house, could reach £13,000 to £15,500. On the other hand, pairing a 5kW solar system with a battery can cost around £16,500 - £18,500. As you can see, the prices increase the larger your solar system size is.

How much does a 5kwh solar battery cost?

The average cost of a 5kWh solar battery is £2,000-£3,000, if you include it within a solar panel system installation. A 5kWh battery is suitable for the majority of homes in the UK, as the average annual electricity consumption is 3,400kWh.

How much does it cost to install a solar battery?

The price of installing a solar battery falls by around £2,000-£3,000 if it's installed at the same time as solar panels. The price of the inverter is already folded into the total amount of a solar panel system installation, and adding a battery doesn't involve much additional labour cost either.

How much does a 10kW solar battery cost in the UK?

The average price of a 10kW solar battery in the UK is approximately £8,000. Are solar batteries worth the cost in 2025? For larger properties, battery storage generally makes sound economic sense. However, for smaller homes, there are several factors to consider when determining whether it is economically viable.

Should you use solar battery storage in the UK?

With electricity prices in the UK still high, more homeowners are turning to solar battery storage as a way to take control of their energy bills. By pairing solar battery systems with solar panels, you can enjoy greater energy independence, reduced reliance on the grid, and the ability to maximize the energy your solar panels generate.

A 10 panel installation and a 5kWh battery (our most popular system) costs £8,477 with an essential battery of £10,193 with a smart battery. All costs are based on Aug 25 prices.
