

Solar panels and battery scotland

How much does a solar panel installation cost in Scotland?

We pride our self in being one of Scotland's most experienced installers and designers of Solar power energy and battery storage systems. We have thousands of solar PV systems already installed all over Scotland. Our solar panel installations cost from £4000 for a 4KW to £7000 for a 10kw fully installed and MCS certification.

Are solar batteries a good investment in Scotland?

Your home battery storage system manages your energy requirements and makes it easier to make money from any excess energy that your panels generate. Therefore, installing solar batteries in Scotland could be a lucrative investment for your future.

Do solar panels work in Scotland?

This means your home will reap the full benefits of every bit of energy produced by your solar panels as they charge your solar battery system which successfully stores it. The weather in Scotland makes your solar panels less efficient, it's not unusual to have overcast weather for days on end.

Why do solar panels need a battery in Scotland?

The weather in Scotland makes your solar panels less efficient, it's not unusual to have overcast weather for days on end. Therefore, it's wise to supplement your PV system with a solar battery or multiple batteries depending on the size of your array.

How long do solar panels last in Scotland?

Solar systems last around 25 years, with many systems containing recyclable elements. By installing a PV system and solar batteries in Scotland, you reduce your carbon footprint significantly. You can even make some money by selling your excess power back to the energy grid at the prevailing rate.

How many solar batteries can a family use in Scotland?

A family of four or five in Scotland probably could use at least two batteries. That way, there is a backup if one unit fails. When selecting your system, inquire whether you can add extra units should the need arise. Our team recommends installing solar batteries simultaneously as you do your system.
