

Solar panels and battery storage northampton

Does Northamptonshire have a solar energy system?

The SEG has been set by the Government for energy companies with 150,000 or more customers to offer a tariff and make payments for surplus energy fed back to the grid. Northamptonshire, and particularly Northampton, is well suited to solar energy due to its lower than average rainfall / cloud coverage compared to many parts of the UK.

Is Northampton a good place to install solar?

Northamptonshire, and particularly Northampton, is well suited to solar energy due to its lower than average rainfall / cloud coverage compared to many parts of the UK. With a 5KW Solar System installed by Moulton Solar, you're local Solar Expert in Northampton. Moulton Solar are MCS certified installers. Why is being MCS registered important?

Should you invest in solar power in Northampton?

Businesses in Northampton can benefit from investing in our solar power systems - it's a clean green energy source that provides your business premises with free power and gives you a good marketing angle as you're doing your bit to reduce your carbon footprint.

How many solar panels are installed a week in the UK?

Just over 3,000 solar installations are being carried out every week, according to trade association Solar Energy UK, up from 1,000 a week in July 2020. "More solar panels are being put on British roofs than ever before," said Chris Hewett, chief executive of Solar Energy UK.

Are solar panels a sustainable way to charge your electric vehicle?

Did you know that when you install solar panels, you can use them as a sustainable way to charge your electric vehicle? Eco-Star Solar is an accredited solar panel installer, with both MCS and HIES. That way you know that you're working with an approved contractor that has insurance-backed guarantees.
