

Solar power car battery tender

Should you use solar power for a car battery tender?

When it comes to battery tenders, solar power is a great choice because you can charge your vehicle batteries even in the most remote locations and the energy is free. Many people use their battery maintainers to keep car batteries alive through seasons of non-use, but there are many other uses as well.

What is a solar battery tender?

This solar battery tender is a good choice for indoor and outdoor applications, as it is wide, large, and available in multiple sizes. We can select from 15, 10, and 5-watt options. More importantly, it also works both as a charger and a maintainer. As for its overall construction, it's spark-proof and weatherproof.

Can you use a battery tender on a lawnmower?

You can use your battery tender to maintain the battery on your lawnmower, boat, motorcycle, or any other device that uses a 12V battery. And, with the convenience of solar power, you do not have to be near an electrical outlet. Best of all, solar power is a clean renewable energy source that is free to use, so why not take advantage of it?

Why should you choose a solar battery tender?

It also comes with multiple mounting options such as suction cups to attach to the inside of the windshield or on the dash. One of the biggest benefits of choosing a solar battery tender is portability. You can charge your vehicle's battery anywhere you want as long as there is sunlight.

What is a battery tender?

A battery tender, or maintainer, is designed to maintain your vehicle's battery at the optimum charge so that your car is ready to go whenever you are. With a solar-powered battery tender, you can maintain your charged batteries in an eco-friendly way that will also save you money in energy costs.

Can a solar battery tender help drain a car battery?

If you have a car or motorcycle that you only use seasonally, then you have probably experienced that horrible feeling of turning the key and getting nothing but a hollow click. Thankfully, there is a simple solution to your battery draining problems and that is a solar battery tender.
