OverviewHistoryGeneration portfolioPG& E and the environmentNative American protestDisastersControversiesSouth San Joaquin Irrigation District (SSJID)In the 1850s, manufactured gas was introduced to the United States for lighting. Larger American cities in the east built gasworks, but the west had no gas industry. San Francisco had street lights only on Merchant Street, in the form of oil lamps. Three brothers--Peter, James, and Michael Donahue--ran the foundry that b...

Since our founding in 1973, The Heritage Foundation has been working to advance the principles of free enterprise, limited government, individual freedom, traditional American values, and a ...

OverviewHistoryMethods of generationEconomicsGenerating equipmentWorld productionEnvironmental concernsCentralised and distributed generationElectricity generation is the process of generating electric power from sources of primary energy. For utilities in the electric power industry, it is the stage prior to its delivery (transmission, distribution, etc.) to end users or its storage, using for example, the pumped-storage method. Consumable electricity is not freely available in nature, so it must be "produce...
