

Velux solar skylight battery replacement

How does a VELUX solar skylight work?

Go Solar and Save Big! The VELUX Solar Powered "Fresh Air" Skylight System is our greenest standard flat skylight. A small solar panel attached to the base collects all available daylight (even on cloudy days) to power the battery system that opens and closes the skylight. At the first sign of rain, the acoustic rain sensor closes the skylight.

Can you replace a bubble skylight with a VELUX skylight?

A bubble skylight can be replaced with a VELUX Skylight. If you install one of VELUX's solar-powered skylights in place of the bubble,your customer becomes eligible for a 30% federal tax credit on product and installation. Bubble skylights are outdated,and a replacement with VELUX Skylights is a fast and simple solution.

What is a VELUX skylight?

A unique H1 solution,VELUX skylights incorporate the best of both worlds into energy efficient design - the lighting benefits of daylight and excellent thermal efficiency. The VELUX Group creates better living environments with daylight and fresh air through the roof.
