

Victoria solar battery rebate 2025

What is the solar battery rebate Vic 2025?

The solar battery rebate VIC 2025 is here and it's a game-changer. While Victoria's interest-free loan program has officially closed, the federal Cheaper Home Batteries Program is now active, offering up to \$330 per usable kilowatt-hour in upfront rebates. If you're considering battery storage, this is the time to act.

Does Victoria offer a home battery rebate?

Victoria's primary support for home battery installations is delivered through the Solar Homes Program run by Solar Victoria. While the state's solar battery rebate (a direct cash rebate) has ended, it has been replaced with a generous interest-free loan to reduce your upfront costs.

Does Victorian have a solar battery rebate?

While the state's solar battery rebate (a direct cash rebate) has ended, it has been replaced with a generous interest-free loan to reduce your upfront costs. Eligible Victorian homeowners can access interest-free loans of up to \$8,800 for installing a home battery system, with the loan repaid over four years.

How much does a solar battery rebate cost?

As of 2025, eligible households can access a rebate of up to \$2,950 to help cover the cost of installing an approved solar battery system. This can reduce your upfront cost by 30-40%, depending on the system you choose.

Who is eligible for a Victoria solar rebate?

Victoria solar rebate eligibility for homeowners: **Property Ownership** You are the owner-occupier of an existing home, or you own a home currently under construction, and the battery system will be installed there. **Income Limit** The combined taxable income of all property owners is less than \$210,000 per year. **Property Value**
