

What is the name of the lockable iron anti-theft power storage cabinet

How can Polarium batteries be protected from theft?

To deter theft of Polarium batteries, we have developed an intelligent anti-theft system consisting of multiple features that turn uncertainty into predictability. The cabinet has a unique patent pending locking mechanism that restricts physical access to the batteries.

How does a battery storage cabinet work?

The cabinet has a unique patent pending locking mechanism that restricts physical access to the batteries. If the system detects a theft, it disables your battery and prevents future unauthorized usage. The embedded tracking device and Edge Connectivity Module allows you to track your battery and help recovery it.

Does torklift have a locking battery box?

Torklift International's PowerArmor line features high quality locking aluminum battery boxes. With RV battery security in mind, each locking battery box was specifically engineered to prevent increasingly common battery theft and related damage to wiring from 'cut and run' thefts.

What is a locking battery box?

With battery health and performance in mind, the locking battery box features a special ventilated design and acid neutralizing battery mat. To extend the life of your batteries up to 400% and prevent premature battery replacement, opt for the PowerArmor Solar battery box, also available in the single size application.
